

Strategic Alliance Partner Program

Why Partner with Cybriant?

Reliability and trust: Become a trusted security advisor by leveraging Cybriant's extensive history of threat expertise and intelligence.

White label by offering our cybersecurity services to your customers under your own branding.

Immediate Deployment: The addition of world—class security services to your current offering with no capital outlay and zero staffing headaches.

Enhance your profitability and use your funds and staff to expand into other new services.

MSP-friendly pricing: With Cybriant's simple pricing, you'll be able to offer your customers a fixed monthly price.

Improve client retention: Build trust while improving your customers' security posture.

Cybriant's partner program enables Managed Service Providers (MSPs) to sell cost-effective cyber security services to their clients. Our 24/7 Cyber Security Operations Center (C-SOC) delivers a comprehensive solution that combines state-of-the-art tools, threat intelligence, and experienced cyber security specialists to prevent, detect, and respond to advanced cyber-threats.

Offer your customers industry-leading cybersecurity services and solutions including:

- **Managed Security Services**— multiple levels of secure, trusted monitoring for all your IT assets from end-point to the cloud.
- **Security Device Management**— full maintenance, updates, rule changes, tuning and 24/7 monitoring for security devices by security experts.
- **Incident Response**— containment and eradication of threats, to minimize the impact of a cyber-attack.
- **Vulnerability Assessment**— evaluation of your existing safeguards to determine weaknesses and provide actionable recommendations prioritized to your environment.

The Cybriant partner program is simple, profitable and flexible. Partner with Cybriant to benefit from our aggressively competitive discounts.
